**AFL-CIO Agency Plans  
Pending; Salvation Army  
Seeks New Building**

Sidney L. Aubrey, vice-president of Mercantile Mortgage Co., was named 1961 campaign director of the Quad-Cities United Fund drive by unanimous vote of the executive board of directors at a meeting Thursday afternoon at the YMCA.

Aubrey, newly-elected vice-president of the United Fund board, will have the task of spearheading the campaign in its bid to top the goal for the third straight year.

James Hamilton Jr., executive vice-president of Granite City Steel Co., led the successful 1960 drive which surpassed the goal and yielded \$286,000.

Aubrey said this year's drive, which begins in the fall, will net ample funds to meet that figure, although a goal has not yet been set.

**Goal To Be Set**  
The goal will be determined after budgets of member agencies are formulated in meetings which will continue until the fall. Tentative kickoff is slated for September, and the campaign will be staged for a three-week period.

Seventeen agencies within the United Fund receive financial aid from the drive.

In other action at Thursday's U.F. board meeting, John Solenberger, executive director, reported that installation of physiotherapy equipment at St. Elizabeth Hospital will be made in the near future.

The equipment, purchased from funds of the Social Planning Council of the U.F., has arrived and is awaiting installation. Cost of the equipment was \$4,400.

Installation cost will be \$3,000. The total was earmarked in the 1958-59 campaign.

**Community Services**  
No decision was reached on reviewing the AFL-CIO Community Service agency, although there has been a demand for aid.

Edwin Reiske, U.F. board member and president of the Tri-City Trades & Labor Council, said three members of the U.F. board and three members of the trades council had met to develop a plan, but a "statement" had been encountered.

Reiske, who described the session as a "feeler meeting," said the statement would continue unless other periodic meetings are scheduled with the Labor Participation Committee.

He said that at present "many needy cases exist in the labor movement" and that the statement should be done about that.

The agency has no director, and its survival on a local basis is in doubt. The program had been financed jointly with the Alto and East St. Louis United Funds.

Milton Morris, a member of the U.F. committee, said that lack of funds is an important factor in creating the problem.

**Office At Labor Temple**  
To help cut costs, Reiske said.

## Lee Urges 3 On Levee Board From This County

**Believes Plan Can Be  
Amended; Urges Work  
By All Receiving Pay**

A seven-member levee district board including three Madison county residents was advocated at Friday night's Venice city council meeting by Mayor John E. Lee, who acknowledged some "slipshod" operations but said the district "can be and should be" improved.

The mayor said the district should be maintained, but emphasized the need for "equal representation" for both the Madison and St. Clair county portions. He expressed the belief that the three-four drive would be obtained and said he will work to achieve it.

State Rep. Paul Simon said that the board president, with Dan Castello, labeled the proposal as a "political stunt" intended to increase the East St. Louis mayor's influence from a 2-3 minority to a 4-3 majority.

The anti-Costello group later said a survey it had made showed many more on the levee pay roll than are actually working.

Meanwhile, Castello had another board member, Thomas Hennessey, arrested for allegedly "threatening to kill him, and the case was continued Saturday for one week because a witness was out of town.

**Against Payroll Padding**  
"The levee district probably has done some things in a slipshod manner," Dr. Lee commented at the city council meeting.

"I am one of the advocates that the levee board should do a job commensurate to the pay," the mayor said. "I think that can be gotten over."

He doesn't think the answer is disbanding the levee district, he said, noting this area's investment in taxes and bond debt still remaining. He pointed out that if the three-four plan is approved, Madison county eventually could gain a majority if its population surpassed that of St. Clair.

Commenting on the Simon proposal, he said that Madison county residents get together to get a majority.

## April Election On Special Fire Tax Rate In Venice

An election April 18 to authorize a 20-cent special tax rate for fire department costs was scheduled Friday night by the Venice city council. Mayor John E. Lee said passage will be necessary if the city is to retain its present fire insurance rate.

While commenting that it is not planned to use the full rate, the mayor said some additional tax is needed to meet rising municipal costs, and the present fire rate, in particular, needs bolstering.

Since pumping capacity of aging Venice fire trucks is dropping below the minimum requirement of 500 gallons a minute, it will be necessary to improve the department's equipment, Dr. Lee said. He indicated that a new truck will be sought, and estimated that the tax increase would be less than a fire insurance rate boost.

The special tax proposal will be submitted to voters simultaneously with the election of city officials. A special tax rate was approved in a similar election in recent years.

**To Reopen Mall Street**  
In other business, the council voted to repeal its ordinance authorizing temporary closing of the South Main street crossing at Litchfield and in the Lake of the Ozarks area.

This morning's storm knocked out telephone service for about 200 customers of Southwestern Bell Telephone Co. in scattered sections of the area, and crews were called out early to repair the lines, according to the manager, Roy Pelster.

**Police Line Out**  
Among the lines knocked out was the telephone line to the police station, which went out at 2:05 a.m., but was quickly restored to service.

Tornado alert warnings were broadcast late yesterday and tonight. Damage was reported at Litchfield and in the Lake of the Ozarks area.

THERE WERE FEW ANCIENTS AMONG THE ANCIENT ROMANS

**THE AVERAGE ANCIENT ROMAN LIVED TO BE 22**

The American born in 1961 can look forward to a life span of nearly 70 years. Since 1900 alone, average life expectancy has climbed an incredible 20 years. Medical progress is the great achiever of these revolutionary gains. New research and new knowledge today promise even further advances.

Nevertheless, neglecting to see a physician in time to benefit fully from modern medical science is cheating many not only of average years, but of extra years. Clearly, the great step toward better health and longer life is simple: regular medical check-ups.

# Comins Advance To Wood River Sectional Play

## Warriors Fall In Regional Final Here Friday, 55-45; Kahoks' String Reaches 26

Thoroughly tried and tested, Collinsville's Kahoks move up a notch this week to participate in the Wood River sectional basketball tournament after winning the regional title here Friday night by defeating the host Granite City Warriors 55-45.

Andy Sullivan's Redmen were played "you take it I don't want it" with the lead of their semi-final game Thursday night during the first eight minutes of play.

The lead changed hands no less than 11 times during the period, with the Warriors ahead 18-17 at quarter's end after Granite City's Tomlinson stuffed through a jumper from the side with four seconds remaining on the clock.

Mickey Mateyka opened the second period with a basket to put the Tigers ahead for the first time. Jim Simpson countered with one of his high-arching shots from behind the free throw line, and the Redmen went on to victory from there.

Granite City threatened to break the game open when Harry Thruau engineered a steal out front and drove in all alone for a basket, but the Tigers strung six quick points near the end of the first half and trailed by just two, 36-30, as the teams left the floor.

Laughing Narrows Lead They crept to within one point early in the third quarter as Otis Vaughn hit two long set shots over the Warrior zone defense. But Frank Knight, who was good for two points almost every time he got the ball, swished through three successive jump shots and Tomlinson followed with a jumper. Granite City moved ahead 47-37.

Edwards never was able to close the gap to fewer than five points afterwards. Tiger Coach Ron Harris employed Tony Peniston's high post most of the evening, but the Warriors collapsed around him every time the 6-0 jumping jack received a pass, and Tony had to settle for only five points.

The low total was due in part to a slight ankle sprain he sustained late in the first period which forced him to sit out half of the second quarter.

In one of the rare demonstrations of sportsmanship in the tournament, Peniston drew a round of applause from Granite City rooters when he fouled out with 3:10 remaining in the ballgame. Edwards fans were disappointed when Warrior Coach Andy Sullivan removed Peniston and Knight a few moments later.

Warriors Shot 84% Knight, who found time to pull down nine rebounds, led all scorers with 22 points, making good on 10 of 12 free throw attempts. The Warriors as a team shot well enough to win, hitting 30 of 55 attempts for 54%.

The Tigers found time to tie the ballgame in the fourth quarter by passing cross-town rival Belleville Cathedral 60-43 in the final of the East St. Louis regional basketball tournament Friday night.

Paced by the shooting of Frank Synek, Bill Schlueter and Barry Jackson, the Maroons broke open a tight ballgame in the fourth quarter, scored 23 points and needed only a 16-10 victory in 28 games this season.

Synek tallied 19 points, Schlueter 18 and Jackson 13. Rich Deslavo, a member of the Catholic Athletic Conference's all-league squad paced the Crusaders with 18 points. Cathedral ended the season with a 16-10 mark.

Belleville led 19-15 after a low-scoring first half, but stretched the margin to 37-30 after three quarters. The Maroons defeated Cathedral in each of the teams' three meetings Friday night.

Pate Keefe of Cathedral hit a 30-foot set shot in a sudden 1:40 overtime period Thursday night as the Crusaders nipped East St. Louis in the East St. Louis regional semifinals, 49-47. Belleville township had its hands full in the other semifinal game with district winner Waterloo, but finally slipped by the Bulldogs, 50-46. The Maroons trailed 30-28 going into the last quarter of the low-scoring contest. It was Waterloo's third defeat in 24 games this season.

East St. Louis Cathedral finished in a dead heat in regulation time, 47-47. Neither ball club was able to break the tie in overtime. Keefe's clutching goal came with one minute of the sudden death period elapsed. The Flyers finished with a 10-14 slate.

## Adoption Of County Zoning Code This Year Merits Active Support By Public

Now that preparations for adoption of county zoning are nearing the final stages, it would be a good time for local organizations to become active in supporting the proposal.

Initial planning has been revised to meet the specific needs of each unincorporated section, and a series of public hearings in May or June will precede presentation to the County Board of Supervisors for action. Because of its importance to the future of the Quad-Cities and the entire county, passage is essential and the efforts of interested individuals and organizations would be helpful in reaching this goal.

With one of the finest harbors and locks systems anywhere on the Mississippi River and a port district preparing for initial operations, the outlook for this community is extremely bright. Availability of spacious sites at this strategic location assures development of an important transportation and industrial complex, if needed land controls are established.

The future of all local residents, both in the fringe area and within city limits, is closely tied to progress toward a county zoning code. With basic planning already accomplished, concentrated effort this spring can result in success.

Progress would be faster if people could go forward on excuses.

## Outstanding Concerts Presented By Local Association For Eight Years

With its ninth annual membership drive starting and its 1960-61 season coming to a close this month, the Tri-City Community Concert Association again is in the news.

For eight years, the association has been the only group of its type in the community, regularly providing outstanding cultural programs in the fields of vocal and instrumental music and occasionally presenting dance programs.

When the new state university is built in Madison county, cooperative efforts of the school and such organizations as the Concert Association should enable an even wider variety of concerts to be arranged.

## Campaigns Helpful In Revealing Any Weak Points Of Candidates

Shouts of "politics" at last week's Granite City council meeting were correct. Bad politics, we suspect, for those who successfully advocated unnecessarily high engineering fees for street projects. It is to the credit of five aldermen—Donald Partney, Paul Rutledge, Walter Nonn, Camer Skubish and Mrs. Gabrielle Betine—that they voted against the excessive fees.

Interesting points brought out in the discussion included previously unannounced employment of the mayor's secretary by the engineer. Although this may help answer why there was such determination to continue paying fees well above those ordinary processes of the brain.

## 25 YEARS AGO

The following items were taken from the files of the Granite City Press-Record.

**MONDAY, MARCH 6, 1935**  
Highly elated over the recent victory of its basketball team in winning the first trophy the school has ever received since it entered athletics eighteen years ago, the Venice board of education voted unanimously last Monday evening to give a public banquet to honor the Red Devils.

Other nominees are Jack McKeehan, vice-dictator; Harry Scuzza, prelate; William Ussner, treasurer and Roy Holohouser, trustee for three years.

Arthur Varnum, of 2555 Cleveland blvd., is among 95 freshmen selected for membership in Phi Eta Sigma, national scholastic honorary fraternity. His scholastic average is 4.06 out of a possible 5.0.

recommended by the professional engineers' organization. It is still surprising to see the issue pushed by officials simultaneously with their bids for reelection.

While in some cases "the pot calls the kettle black," there is nothing like a hard-fought election campaign to ferret out and spotlight the foibles of officials and other candidates. This is in the interest of the public, which can consider the competitors in greater depth than their campaign pictures and promises.

## Accidents Taking Heavy Toll, Auto Firms To Back Safety Belt Program

While traffic mishaps claimed 38,200 lives in 1960, the year's complete toll of accidental deaths was 93,000. Over 9,000,000 others were hurt in various accidents, meaning that one of every 19 persons suffered a disabling injury during the year, new National Safety Council statistics show.

Overall gain in accidental deaths was 1%. The line was held on work accidents, 13,800, public mishaps, 16,500, and falls, 18,700, but there were slight increases in home accidents, to 27,500, drownings, 6500, and firearms deaths, 2300. In all, accidents cost \$13,400,000,000.

Long bright spot is that while the number of motor vehicle fatalities climbed 1%, the rate per 100,000 people dropped from 52.2 to 51.7, due to a 2% population rise. A numerical decline also may be possible beginning this fall, when all American auto manufacturers will begin installing safety belt attachments anchored to the frame or subframe.

Since it will be easier to attach seat belts, and the total cost will be greatly reduced, there is real hope that their use will gain general acceptance. Methods for sharply reducing the many non-traffic accidental casualties remain to be found.

## How To Become An Expert On Aging—Live To Be 100

We do not know if even the centenarians themselves take seriously the advice they give on how to reach advanced age, but nearly all of them seem happy to be asked for their opinion on the subject. The most comprehensive report available has just been prepared by the Bureau of Old-Age and Survivors Insurance, which interviewed 131 still receiving federal benefits beyond the century mark.

Conflicting advice was given on drinking, smoking and regular hours, but most opposed too-heavy eating. "It's a good thing to push away from the table before you're full. I never have gone in for a lot of fancy food," 103-year-old Charles Ball summed up. Tatsunobu Du Pea, 111-year-old Indian, believes contentment is the secret of longevity, but Probate Judge Albert Alexander, 101, of Flatburg, Mo., said "man's desire to do something different and better is a factor."

Best approach appears to be that of Andrew Brown, 105, who lives in Granada, Miss., and has over 200 descendants. "I have no comment," he placed myself in the hands of the Lord and tried to live in the way He and my fellow man would approve."

## Weed Fire Ignites Poles, Railroad Ties

Stacks of utility poles and railroad ties were ignited in a weed fire at 22nd street and railroad tracks about 2:50 p. m. Thursday. No estimate of the loss was available.

Firemen from the main station answered the alarm and made two trips to a fire hydrant to refill the booster tank on the truck before the flames were extinguished about 3:50 p. m.

At 4 p. m., firemen from the West Granite station were called to the 2400 block of Logan street to extinguish a weed fire at the rear of the water reservoir. No damage was reported.

An appeal to the public to participate in the March-to-Church-in-March drive was made today by Rev. Rusty McNair, pastor of the East Granite Methodist Church.

## Accident, Injury Rates Increasing In GC

For the fourth year in a row, the number of traffic accidents occurring in Granite City during the first two months of the year has increased.

In two months this year, 198 accidents have been reported to police, as compared to 188 last year, 151 in 1959 and 149 in 1958.

Severity of accidents also has increased with 62 injuries in the two-month period, a sharp increase over the 45 in the same period of 1960, 41 in 1959 and 40 in 1958.

During February, 85 accidents in 24 injured were reported in addition to the 113 mishaps with 34 injuries in January. The police department's record section had predicted 99 accidents last month, and during the first half of the month, with 52 accidents in 14 days, it appeared the predictions would be topped. However, as snow and ice disappear, the number of crashes dropped.

### SIDELIGHTS from SPRINGFIELD

By Rep. PAUL SIMON

What kind of abortion should be permitted legally in Illinois? That question is posed by the new criminal code introduced in the legislature last week.

The proposal is that abortion should be legal under three circumstances:

On the second point, for example, the committee which drafted the law took in mind the situation: "In illustration of the situation, . . . is where the mother conceived the fetus during early pregnancy with re-

## The FORUM

READER'S OPEN LETTER TO TEENAGE GIRLS, PARENTS

Attention: Teenage girls and their parents.

First of all, there are always "exceptions to the rule"; therefore, this article is not intended to offend all members of the above group. As a matter of fact, we spend our evenings with a youth fellowship group — an excellent group of teenagers to be proud of. When an occasion arises as follows, I can't help but be concerned — "Is the problem teenagers or parents?"

Our phone rang a few minutes after midnight. Naturally, at such a time, we feel it is an emergency — someone in the family or perhaps an accident. Quite startled, you jump out of bed and answer the phone — only to hear a group of teenage girls giggling and jabbering something about a WILC quiz. It is so ridiculous, it is infuriating.

We had a serious family illness and this happened quite often — always leaving us weak with the thought that if we were called, it would be a real emergency. If such things occur at slumber parties or the like, why does the person supervising permit it?

I would give kids more credit to line up better entertainment for themselves. Come on kids, you want to be acknowledged as "grown up" then act that way. Come on parents, you are grown up — exercise your authority and guide your child to a better should be. Parents — find out what your kids are doing.

## MORE ABOUT

### 15 Hurt In Auto Crashes

(Continued from Page 1)

Beverly Holman, 3402 Kirkpatrick Homes, is in fair condition at St. Elizabeth Hospital where she was taken by ambulance.

She suffered a skull fracture and multiple abrasions to her knees and back and bruises. Police charged the driver, Everett E. Davis, 66, of 2807 Woodwood avenue, with driving too fast for conditions. He pleaded not guilty during a hearing Saturday before Police Magistrate Gasparovic and was freed on bond for an appearance on March 25.

He told police he was driving south when the girl ran in front of his car. A witness said the girl had just come out of the store.

Terrilyn's mother told the Press-Record she had refused to permit the girl to go to the store after she had found the pennies and did not know she had gone until after the accident occurred.

### Hurt As Car Hits Pole

Travis Elford, 52, Hagerstown, Md., was treated at St. Elizabeth Hospital for lacerations on the forehead and scalp, being taken there by ambulance from the scene of an accident on Route 162 a half-mile west of State and Route 25 at 5:30 p.m. Saturday.

Elford was a passenger in a westbound auto that left the highway and struck a utility pole. The driver, Monte Parks, 47, of 2139 Peeling road, who escaped injury, was charged by state police with drunk driving and driving too fast for road conditions.

### Hurt In Four-Car Crash

Injury and arrest resulted for Ernest C. Kent, 30, of 4917 Redwood lane in a chain-reaction crash of four northbound cars on Nameok road immediately south of Pontoon road at 7:15 p.m. Friday.

Police said the other three cars were halted as Kent's car approached. Its front collided with the rear of the vehicle of George W. Udel, 71, 2248 Miracle avenue, which in turn was pushed against the rear of the car of Carroll A. Penon, 39, of 4218 East Lake drive.

The front of the Penon car then collided with the rear of the auto of Shirley Adams, 36, of Boston street.

Taken from the scene by ambulance, Kent was treated at St. Elizabeth Hospital for lacerations to the lower lip and abrasions to the right knee and a possible jaw fracture. He was charged with reckless driving and following too closely, being released on his driver's license until a hearing Wednesday.

### Crash Injures Driver

Two persons were injured when their cars collided a short distance south of the new Mitchell overpass on State Route 203 at 10:30 p.m. Friday. Both were drivers and were alone in their vehicles.

Injured were Leroy W. Burton, 36, of 2901 Oregon avenue and Marion T. Barr, 24, of 18 Moreland drive.

Burton was treated at St. Elizabeth Hospital for abrasions to the left side of the neck, right knee, forehead and right forearm. He was released.

Barr received a cut lower lip and puncture wound to the left forearm. He was not admitted. Both were taken to the hospital by ambulance and the cars were towed to a garage.

State police said Barr was traveling south and Burton was headed north and veering around a barricade at the time of the crash.

### Injured On Bridge

Ray H. Boman, 38, St. Louis, was injured when his westbound car struck a divider strip on the west end of McKinley bridge at 8:40 a.m. Saturday, Venice police said.

He was taken to St. Elizabeth Hospital and treated for nose and chin lacerations and loss of teeth.

He was lying in a sleeper compartment when impact of the crash threw him from the compartment onto a gear shift. The driver of the westbound truck was not hurt.

Gallinger was treated at St. Elizabeth Hospital for abrasions to his back, left side, and complaints of pains in his chest, right shoulder and left leg. X-rays were taken and he was admitted. His condition is listed as fair.

A Michigan motorist, William Richard Sneed, 32, of Lincoln, Mich., suffered minor injuries yesterday evening in an accident on Edwardsville road at the East 19th street rail crossing.

Police said Sneed was driving north and slowed for crossing signals when his auto was struck by the northbound car of Joseph Cuvar, 53, of 2416 East 20th street, who said his auto skidded on the wet pavement.

Mrs. Jessie Scott, 23, Route Three, St. Charles, Mo., obtained emergency treatment at St. Elizabeth Hospital at 9:50 p.m. Friday after an auto accident. She suffered a twisted neck and bruises to the spine, and reported a headache.

### Bomb Scare Telephoned For School By Boy

Another bomb scare at a school, the second this year, was received at 1:15 p.m. at the city hall switchboard.

The operator, Mrs. Lucille Stucke, said a boy's voice was on the line, and the youth told her a bomb is planted in Coolidge school to go off in an hour, and we're not kidding this time.

Mrs. Stucke immediately notified police who in turn notified the school principal. Several weeks ago a similar scare alarm was turned in also at lunch time, for Central school.

Police Chief Raymond Wilmszig said police are searching the building without disrupting classes.

Cancer takes more lives than any other disease among children between the ages of five and 14.

An undetermined amount of cash was taken from a small vault at the local office of Southwestern Bell Telephone Co., 2001 Edison avenue, in a break-in that was discovered about 5:10 a.m.

A small vault in the front of the office was broken open, and the intruders apparently did not disturb a safe which was left open. Roy Pelster, office manager, said the safe contained only records. He said the amount of money taken from the small vault could not be determined this morning.

Deputies were called to the Egyptian Radio Club, Rural Route One, where burglars slashed an outside window screen in an unsuccessful attempt to gain entry and then forced open another outside door and made off with several cases of beer, a radio microphone and \$150 in change.

The sheriff's office also received a report of the apparent theft of 180 pieces of 2x4 lumber valued at \$85 from the home of Ralph Harris in the Granite City Rural area.

Theft of a two-way speaker at Lee's Grill in the 1600 block of Madison avenue was reported Thursday evening to Granite City police.

## Industrial Corp.

### Seeks Right To Operate In State

Papers seeking permission for the St. Louis Metropolitan Chamber of Commerce Industrial Park Corporation would then have authorization to acquire land in the Illinois Metropolitan Area for a proposed second major airport and industrial park there, Kaufmann said.

The airport and the industrial park adjacent to it are two of three projects scheduled for possible development by the Corporation and the Bi-State Development Agency. The third project is a proposed industrial park at Columbia Bottoms on the Missouri side of the Mississippi River.

If approved, the Industrial Park Corporation would then have authorization to acquire land in the Illinois Metropolitan Area for a proposed second major airport and industrial park there, Kaufmann said.

## Functions of Goodwill

### Industries Told Club

The nature, organization and function of Goodwill Industries, Inc., were explained to members of the Daybreak Optimist club Saturday morning by a Goodwill Industries representative, Harry Holtgrewe, who addressed the club at its regular meeting in the YMCA here.

Main function of the industries is not merely to occupy the handicapped person, Holtgrewe stated, but to prepare and equip him for useful service in the community and pay him a living wage.

Wages in this area, which includes all of Southern Illinois and the metropolitan St. Louis district, are \$1 an hour, he said.

Holtgrewe stressed the value of Goodwill Industries pickup stations yield an average of 100 bags of repairable clothing and other items each month, he said, "giving considerable employment to the handicapped."

He added that there are 39 retail stores in Southern Illinois where clothing and household equipment repaired by the industry are offered for sale.

Members were reminded of the club's St. Patrick Day party to be held at Peter's Cafe on March 17, and an Easter Egg hunt for children in Wilson Park on April 1 at 10 a.m. Candy instead of hard-boiled Easter eggs will be used this year.

## Roca Club To Form Suburban Chapter

A new chapter of the Roca Young Men's club is being organized and will meet for the first time tomorrow evening for an election of officers. It was announced over the weekend.

The organization, Royal Order of Christian Americans, also is considering plans to expand and form chapters in neighboring cities in response to many requests.

The present group recently celebrated its 10th anniversary and by dividing the local organization for two chapters with more membership, it is expected to better promote youth activities and welfare throughout the community.

Division of the present chapter to two chapters will be "town and suburban." The town group, which will continue to meet at the Moose Lodge building, will be known as the Black Chapter, and the suburban group, which will meet in the Big Top Bowl banquet room, will be known as the Gold Chapter.

Candidates for president of the downtown chapter are Victor Buehler, Charles Parkinson and Jamie Taylor. The candidates for presidency of the suburban chapter are Daniel Brawley, Jon Davis and Michael Mundy.

In creating the new chapter, the members added some competition between chapters should help cement club brotherhood as well as increase the number of charitable and civic projects carried on by the teenage group.
